Subject Index

Amplifiers
- Control of Amplifier Source Resistance—Charles A. Wilkins, 9
- Transistor Audio Power-Output Stages—J. Marshall and D. Mogen, 60
- An Output-Transformerless Amplifier—Hiroshi Amemiya, 72
- A Practical Commercial Output-Transformerless Amplifier—Julius Futterman, 163
- Transistor Input Stage for Phonograph Pickups— H. C. Lin, 168
- Transistorized Microphone Preamplifier and Remote Broadcast Mixer-Amplifier—William D. Bevitt, 181
- Theory of the Bridge Amplifier—John van Heijenoort, 185

Disk Recording and Reproduction
- Recent Developments in Precision Master Recording Lathes—Jerry B. Minter, 50
- Locked Concentric-Grooved Disk for Use in Measurements of Disk-Reproducer Performance—Jack Feinstein, 76
- Comments on the Paper, "On Stylus Wear and Surface Noise in Phonograph Playback System"— D. A. Barlow, 116
- The Control of Quality in Phonograph Records—Edward H. Uecke, 159

Home Systems
- Some Thoughts on Evaluating Audio Components for the Consumer—Julian D. Hirsch and Milton Weiss, 145
- A Professional Approach to Home-Recording Systems—Philip C. Erhorn, 176

Loudspeakers
- The Isophase Loudspeaker—Theodore Lindenberg, 56
- Quality Control of Loudspeakers at It Affects Consumers —E. V. Reiss, 82
- Tweeter Design Considerations—George W. Sioles, 105
- Development of a New Flight-Deck Loudspeaker—P. J. Densberger, 138

Magnetic Recording and Reproduction
- Some Experiences with Mass-Production Tape Duplicating—Cecil S. Bidlack, 31
- The Influence of Magnetic Pigment Properties on Coated Recording Media—Ernest W. Franck and Edward Schmidt, 38
- A Direct-Reading B-H Meter—Andreas Kramer, 41
- New Products and New Applications in the Magnetic-Tape and Film Fields—Ernest W. Franck and Edward Schmidt, 90

Measurements
- A Direct-Reading B-H Meter—Andreas Kramer, 41
- Locked Concentric-Grooved Disk for Use in Measurements of Disk-Reproducer Performance—Jack Feinstein, 76
- Free-Field Technique for Secondary Standard Calibration of Microphones—Arnold L. Seligson, 110

Microphones
- Free-Field Technique for Secondary Standard Calibration of Microphones—Arnold L. Seligson, 110

Miscellaneous
- Audio in Salmon Research—Richard H. VanHaagen, 151

Pickups
- A Program to Design a High-Quality Pickup—Walter O. Stanton, 24
- The Radial Tone Arm—An Unconventional Phonograph Pickup Suspension—H. E. Roys, E. E. Masterson, 101

Speech Analysis & Synthesis
- Synthesis of Speech by Electrical Analog Devices—Kenneth N. Stevens, 2
- The Use of Spectrograms for Speech Analysis and Synthesis—John M. Borst, 14

Speech Input Equipment
- Audio Console Design Notes—Philip C. Erhorn, 65

Transistors
- Transistor Audio Power-Output Stages—J. Marshall and D. Mogen, 60
- Transistor Input Stage for Phonograph Pickups—H. C. Lin, 168
- Transistorized Microphone Preamplifier and Remote Broadcast Mixer-Amplifier—William D. Bevitt, 181
